

Al Adan Hospital expansion

Hadiya, Kuwait / 2017

Structural type	precast beams and hollow core
Characteristics	600 beds
Owner	Ministerio de Sanidad de Kuwait
Client	Sayed Hamid Behbehani & Sons Company
Constructor	SHBC
Scope	independent checking
Architect	GHEA

Expansion of Al Adan Hospital. Women and Children Hospital

The project includes seven new buildings: WCH (Women and Children Hospital), SCS (Surgical and Central Services), PTR (Physical Therapy and Rehabilitation), HRA (Health Region and Administration), PTR CP (Physical Therapy and Rehabilitation), ECP (Emergency Car Park) and SS (Strategic Stores).

FHECOR's consulting work consists of the independent check service to validate the structural project performed by another consultancy. The work consists in checking and reviewing the conceptual design and details of parts and components.
