

Toll Highway Mbour - Fatick - Kaolack

Mbour-Kaolack, Senegal / 2014-2016

Owner
Client
Scope

Locafrique
Queiroz Galvao
preliminary project

Road alignment study with two design alternatives with opposing criteria:

- A route as close as possible to the existing road (RN-1) to attract activities from it and minimize connection costs between the new highway and the RN-1 (called "Alternative 1").
- A route far from the existing road that aimed to avoid conflict points, optimize alignment parameters, improve road safety, and prioritize long-distance traffic (called "Alternative 2").
